Board Approves Installation of Generator for Heaps Peak Disposal Site

Generator will prevent any releases of leachate as required by state regulations

SAN BERNARDINO, CA – The San Bernardino County Board of Supervisors acted to protect the safety of the public near the Heaps Peak Disposal Site on Feb. 9th.

The Board authorized the release of funds to install a generator to prevent any release of leachate in the event of a power failure at the Heaps Peak Disposal Site as required by state regulations.

The generator was purchased through Board approval at the June 16, 2009 meeting. Since the installation charges would be incurred in the subsequent FY 2009/10 budget, the approval of funding for installation charges exceeding \$10,000 required Board approval.
